

ALABAMA RESIDENCY CONFERENCE • THURSDAY, APRIL 6, 2023

VIA ZOOM – BREAKOUT ROOM 1

ACPE Session	Time	Presenter	Site/Institution	Presentation Title
1-1	12:00	Welcome		
Session 1: 1.0 hour CPE	12:05	Savannah Jones	Children’s of Alabama	Evaluating Melatonin Use in Pediatric Patients
	12:20	Lindsay Allison	Children’s of Alabama	Antibiotic use in staphylococcal scalded skin syndrome
	12:35	Gracelyn Wade	Children’s of Alabama	Vitamin D deficiency in renal transplant patients: efficacy of replacement
	12:50	Charles Hartley	Mobile Infirmary Medical Center	Outcomes Associated with Vancomycin-Resistant Enterococci and Non-Vancomycin-Resistant Enterococcal Urinary Tract Infections Across a Community-Based Health System
1-2	1:05	Break (10 minutes)		
Session 2: 1.0 hour CPE	1:15	Makayla Garcia	Mobile Infirmary Medical Center	Quality Improvement in Medication Reconciliation
	1:30	Cate Ankersen	Mobile Infirmary Medical Center	Assessing the Value of Pharmacist-led Education of Chemotherapy Regimens Using Surveys to Measure Patient Satisfaction and Understanding
	1:45	Amanda Sweat	USA Health University Hospital	Safety and efficacy of once-daily versus twice-daily insulin glargine in acutely ill medical patients at an academic medical center
	2:00	Linda Tran	USA Health University Hospital	Identification of Risk Factors for Methicillin-Resistant Staphylococcus aureus Community-Acquired Pneumonia at an Academic Medical Center
1-3	2:15	Break (10 minutes)		
Session 3: 1.0 hour CPE	2:25	Brianna Gray	Baptist Medical Center South	Impact of Milrinone on Neonates with Persistent Pulmonary Hypertension of the Newborn
	2:40	Ashlee Milam	Baptist Medical Center South	Effects of the addition of tranexamic acid to the massive transfusion protocol
	2:55	Emilee Howard	Baptist Medical Center South	Evaluation of Compliance with the Three Hour Early Management Bundle for Sepsis in the Emergency Department
	3:10	Jay Pitt	Ascension St. Vincent’s	Evaluate the impact of selected patient characteristics on the primary and secondary outcomes in patients treated with DOACs vs. warfarin

1-4	3:25	Break (10 minutes)		
Session 4: 1.0 hour CPE	3:35	Kreg Montgomery	Ascension St. Vincent's	Multi-center study of methadone and morphine for the treatment of neonatal abstinence syndrome
	3:50	Trey Willoughby	East Alabama Medical Center	Assessing target attainment with pre-steady state versus steady state vancomycin levels in obesity with Bayesian monitoring
	4:05	Kaitlynn Krupp	East Alabama Medical Center	Evaluation of Pharmacist-Directed Heparin Infusion Management
	4:20	Sydney Bowman	East Alabama Medical Center	Impact of Pharmacist Involvement on the Appropriate Dosing of Ketamine and Propofol During Procedural Sedations in the Emergency Department

ALABAMA RESIDENCY CONFERENCE • THURSDAY, APRIL 6, 2023

VIA ZOOM – BREAKOUT ROOM 2

ACPE Session	Time	Presenter	Site/Institution	Presentation Title
2-1	12:00	Welcome		
Session 1: 1.0 hour CPE	12:05	Michael Miller	University of Alabama at Birmingham Hospital	GO LONG! Comparing intermittent and prolonged infusion strategies of cefepime and meropenem at an academic medical center
	12:20	Kyle Humphries	University of Alabama at Birmingham Hospital	Evaluation of Calcium Supplementation During Trauma Resuscitation at a Large Academic Medical Center
	12:35	Lauren Cummins	University of Alabama at Birmingham Hospital	Evaluation of Dose Optimized Extended-Infusion Piperacillin-Tazobactam in Critically Ill Patients
	12:50	Clay Hayes	University of Alabama at Birmingham Hospital	Impact of Opioid Stewardship on Pain Management Following Renal Transplantation
2-2	1:05	Break (10 minutes)		
Session 2: 1.0 hour CPE	1:15	Andrew Revels	Princeton Baptist Medical Center	Impact of Implementation of a Rapid Molecular Diagnostic Platform on Time to Effective Antibiotics in a Community Teaching Hospital
	1:30	Christian Hardrick	Princeton Baptist Medical Center	Assessment of Heparin Twice Daily Versus Three Times Daily For Venous Thromboembolism Prevention
	1:45	Gregory Taylor	Princeton Baptist Medical Center	Evaluation of albumin and loop diuretic combination therapy for deresuscitation in critically ill patients with hypoalbuminemia
	2:00	Quinn Hattaway	Princeton Baptist Medical Center	Direct Oral Anticoagulants for the Treatment of Venous Thromboembolism in Obesity
2-3	2:15	Break (10 minutes)		
Session 3: 1.0 hour CPE	2:25	Marissa Brakefield	Tuscaloosa VA Medical Center	Impact of clinical dashboard on frequency of valproic acid lab monitoring in psychiatric outpatients
	2:40	Amanda Holder	Tuscaloosa VA Medical Center	Evaluating the Impact of a Pharmacist-Driven Intervention on Vitamin B12 Monitoring in Veterans on Metformin
	2:55	Sahil Patel	Tuscaloosa VA Medical Center	Relapse Rates in Veterans on Buprenorphine/Naloxone vs. Buprenorphine Injection: A Retrospective Review
	3:10	Robert Tooma	Tuscaloosa VA Medical Center	Pharmacist-Driven Identification and De-escalation of Unnecessary Aspirin Therapy in Elderly Adults on Concomitant Direct Oral Anticoagulants

2-4	3:25	Break (10 minutes)		
Session 4: 1.25 hours CPE	3:35	John David Abrams	DCH Regional Medical Center	Evaluation of the Management of Vaso-Occlusive Crisis and Acute Chest Syndrome in a Community, Teaching Hospital
	3:50	Janet "Lindsey" Pitt	DCH Regional Medical Center	The Evaluation of Pharmacy Involvement in Sepsis Bundle Compliance within the Emergency Department at a Community Teaching Hospital
	4:05	Madissen Humphries	DCH Regional Medical Center	Impact of clinical pharmacist interventions on sedation and duration of mechanical ventilation in ICU patients
	4:20	Turner Huddleston	DCH Regional Medical Center	Evaluation and Advancement of Heparin Induced Thrombocytopenia Management at a Large Community Hospital
	4:35	Alyssa Krug	DCH Regional Medical Center	Evaluating the Rate of De-escalation of Empiric Antibiotics in Hospitalized Patients with Urinary Tract Infections

ALABAMA RESIDENCY CONFERENCE • THURSDAY, APRIL 6, 2023

VIA ZOOM – BREAKOUT ROOM 3

ACPE Session	Time	Presenter	Site/Institution	Presentation Title
3-1	12:00	Welcome		
Session 1: 1.0 hour CPE	12:05	Leah Winchester	Central Alabama VA Health Care System	Implementation of Empagliflozin in Patients with Pre-existing Heart Failure and Type-II Diabetes Mellitus
	12:20	Shelby Buller	Central Alabama VA Health Care System	Preparation for an Inpatient Alcohol Withdrawal Syndrome (AWS) Management Protocol
	12:35	Abigail Switzer	Central Alabama VA Health Care System	Implementation of AUC/MIC Based Dosing for Vancomycin at Central Alabama Veterans Healthcare System
	12:50	Sara Tyler	Central Alabama VA Health Care System	Implementation of The Choosing Wisely Hypoglycemia Safety Initiative within Patient-Aligned Care Teams in a Veterans Affairs Health Care System
3-2	1:05	Break (10 minutes)		
Session 2: 1.0 hour CPE	1:15	Adriane York	Samford University	Impact of a Pharmacist-Driven Continuous Glucose Monitoring Clinic on Financial and Clinical Outcomes in a Federally Qualified Health Center
	1:30	Jennifer Ha	Samford University	Does insulin glargine or its biosimilar provide the most benefit in improving patients' clinical and financial outcomes? A retrospective review
	1:45	Lacey Hughes	Samford University	Impact of a pharmacist-driven inhaler clinic on outcomes related to COPD in a federally qualified health center
	2:00	Cecilia Hughes	Viva Health	Evaluating adherence rates to diabetes medications included in the Medicare Star Measure for VIVA MEDICARE members living in highly rural counties as identified by the Alabama Rural Health Association
3-3	2:15	Break (10 minutes)		
Session 3: 1.0 hour CPE	2:25	Morgan Rambo	Birmingham VA Health Care System	Impact of an Updated Post Discharge Nursing Note Template on Continuation of Care
	2:40	Rachel Buchanan	Birmingham VA Health Care System	Evaluation of the Effectiveness of Academic Detailing on Utilization of Pharmacogenomics Testing in a Veteran Population
	2:55	Victoria Donaldson	Birmingham VA Health Care System	Impact of Population Management Utilization on Heart Failure Outcomes in a High-Risk Veteran Population
	3:10	Brandon Duplantis	Birmingham VA Health Care System	Temporal trends in usage for oral vs. Intravenous antibiotics for serious infections in the outpatient setting.

3-4	3:25	Break (10 minutes)		
Session 4: 1.25 hour CPE	3:35	Tyler Mitchell	Jackson Hospital and Clinic	Vecuronium Continuous Infusion Versus Intermittent Push in the Management of Adults with Acute Respiratory Distress Syndrome
	3:50	Robyn Best	Jackson Hospital and Clinic	Accelerated physician notification of positive Clostridioides difficile result: an analysis
	4:05	William Carleton	Jackson Hospital and Clinic	Utilization of famotidine for stress ulcer prophylaxis and associated outcomes in a community hospital
	4:20	James Miracle	Jackson Hospital and Clinic	Implementation and assessment of an emergency department Blood culture follow-up post-discharge protocol
	4:35	Anna-Kathryn Priest	Jackson Hospital and Clinic	Impact of pharmacist-led interventions on urine cultures in the emergency department
